THE BIG IDEA WINT WEALTH

Conservatives, not cowboys

THE PLATFORM AIMS TO ATTRACT FIRST-TIME INVESTORS WITH LOW-TICKET, RELATIVELY SAFE BONDS, AND THEN EDUCATE THEM ABOUT ASSET DIVERSIFICATION

AYANTI BERA

IN 2011, WHILE many of his third-year IIT Roorkee peers were preparing for plush tech jobs, Anshul Gupta found himself drawn towards finance — something far removed from his electrical engineering syllabus. Born and raised in a middle-class household in Dehradun, Gupta's career initially had one simple goal: secure a stable, well-paying job that would improve the financial well-being of his family. "My interests in life were secondary at that point," Gupta says.

Thus the placement season in his final year brought him to Oracle in Hyderabad as a coder. But a CFA Level 1 certificate and a growing fascination for capital markets soon nudged him out of that role. "My interest was in finance, so why was I wasting time coding?" he recalls. Over the next two years, Gupta completed all levels of the CFA, took the FRM Level 1, and landed at Deutsche Bank in structured finance - his first real taste of the sector.

A year later, he moved to IFMR Capital (now Northern Arc Capital), where he stayed for five years, eventually heading product development in structured finance. Here, Gupta was in the thick of debt-market innovations - executing India's first covered bond transaction, the first revolving securitisation post-2012 RBI guidelines, and several other first-of-its-kind deals, many even trademarked by Northern Arc.

"We were doing transactions worth ₹25,000 crore over those years, but they were only accessible to large institutions and ultra-rich family offices," he says.

"I thought all these prod-

Anshul Gupta, co-founder, Wint Wealth

ucts were good, but there was no access for retail investors," he adds.

For a retail investor, Gupta saw only two extremes: the safe but low returns of fixed deposits (FDs), and the higher but volatile returns of equities. "There was nothing in between. Bonds and structured debt products could fill that gap, but they weren't available easily to retail investors."

In early 2020, a common lawyer friend connected him to Ajinkya Kulkarni, who was toying with a similar idea. Soon, the founding team - Gupta, Kulkarni, Abhik Patel (product), and Shashank Chimaladari (tech) - came together to launch Wint Wealth.

Their first offering, a securitisation product, proved too complex for retail investors. Within a month, they pivoted

to corporate bonds, which were simpler to understand and offered 2-3% higher returns than FDs.

But soon the question arose: why would retail investors trust a new platform with their money? The solution was with Zerodha.

In January 2021, the discount broker major invested \$2 million in Wint Wealth, which not just provided capital but also lent its credibility to the new platform. "Seeing the Zerodha name on our platform made people more comfortable," Gupta recalls.

From there, growth was steady. By mid-2021, Wint Wealth had 5,000 users and a curated list of corporate bonds. But regulation fears loomed. While the bonds themselves were regulated, the act of selling them online wasn't yet.

The team knew that to scale further, it was essential to be a regulated entity. So they started engaging with the regulators.

Gupta adds that fortunately, Sebi was also very interested in growing the space. "It's been the vision of regulators that if India has to grow, the bond market has to be equally developed as the equity market. If not, capital formation can't be efficient," he says.

Finally, in 2022, Sebi introduced regulations for Online Bond Platform Providers (OBPPs), mandating that only listed bonds could be sold online, whose minimum investment threshold was lowered from ₹10 lakh to ₹1 lakh. But this was still higher than the minimum investment requirement of ₹10,000 (for unlisted bonds),

shrinking Wint's potential customers.

"It was a setback during which we lost some users, but Sebi had a clear vision to eventually bring the minimum ticket size lower. We just had to be patient," says Gupta.

That patience paid off in September 2024, when the minimum ticket size for listed bonds dropped to ₹10,000. Overnight, monthly user acquisition jumped 15-20x, from 1,000 to over 15,000. Currently, Wint Wealth has more than 100,000 registered users.

The platform aims to attract first-time investors with low-ticket, relatively safe bonds, and then educate them about the asset and diversification. The average user now makes five-six transactions a year. About 98% of Wint's revenue comes from corporate bonds, with a small number of users opting for FDs.

Gupta believes FDs will always have a place for emergency funds, but bonds are better for wealth-building. "In an FD, post-tax, you might make 4-5%. With long-term inflation in India at 5-6%, you're losing money in real terms. With bonds, you can get 6-8% post-tax, which is a real positive return."

Wint Wealth's investor roster has grown beyond Zerodha to include 3One4 Capital, Arkham Ventures, Blume Ventures, and Eight Roads Ventures, the Indian arm of global investment firm Fidelity. The company is now well-capitalised but plans to raise more funds for expansion.

Looking back, Gupta says, "in fintech, you can't be a cowboy. It's better to be a conservative, work with the regulator, and never operate in the grey."

Relatives of the victims mourn in front of the Karur government medical college hospital, following a stampede at an election campaign rally held by Tamilaga Vettri Kazhagam party, in Karur district of Tamil Nadu on Sunday

PROBE COMMISSION VISITS SITE OF INCIDENT

Toll hits 40: Vijay not named in FIR, party officials booked

● CM: Won't answer questions with political motives

ARUN JANARDHANAN
Karur, September 28

IN THE AFTERMATH of the stampede at actor-politician Vijay's rally in Karur that killed 40 people, the Tamil Nadu government has moved with striking caution. It has opened criminal cases against second- and third-tier functionaries of Vijay's fledgling party, Tamilaga Vettri Kazhagam (TVK), but stopped short of naming the superstar himself.

Top officials said the deliberate restraint is rooted in political calculations. Any immediate action against Vijay — arrest, interrogation, even a mention in the FIR — could risk sparking a sympathy wave for the state's most bankable film idol, and play directly into the narrative that the ruling DMK is targeting a political rival.

Instead, the state has set up a one-woman commission, headed by retired High Court

judge Aruna Jagadeesan, to investigate the causes of the stampede. The government is also preparing for the likelihood that the Madras High Court may initiate suo motu proceedings on Monday. "The government wants to avoid any harsh step that looks hasty," a senior official said, adding, "Let the committee or the judiciary provide the first push."

A CBI investigation is now likely, with Vijay's camp hinting at conspiracy and petitioners, some linked to the BJP, pressing for such an investigation.

On Saturday night, Karur Town police booked TVK's Karur West district secretary, V P Mathiyazhagan, under multiple provisions of the Bharatiya Nyaya Sanhita (BNS), citing violations of campaign norms at Velusamypuram — the area in Karur where the rally was held. By Sunday, the case had been expanded to include the party's state general secretary, N Anand alias 'Bussy' Anand, and joint general secretary CTR Nirmal Kumar.

The BNS sections invoked in the FIR, ranging from culpable homicide not amounting

to murder (109) to acts endangering life (125b) and disobedience of orders (223), along with the Tamil Nadu Property (Prevention of Damage and Loss) Act, are serious. But conspicuously absent from the FIR was not only Vijay's name but also that of his new close associate, Aadhav Arjuna, general secretary (elections), who is also the son-in-law of lottery baron Santiago Martin.

Police officers said the investigation is ongoing. "The expansion (of the FIR to include) other TVK office bearers is based on evidence of organisational lapses. Whether this goes higher is for later," an officer said.

DMK cautious

The DMK government's caution was visible in its public posture. CM M K Stalin, who flew to Karur in the early hours of Sunday to meet victims' families, limited his comments to condolences and procedure. Asked directly whether Vijay would be arrested, Stalin replied he would not answer questions with "political motives" and stressed that action would follow Justice Jagadeesan's inquiry.

Modi writes foreword to Giorgia Meloni's memoir

RITU SARIN
New Delhi, September 28

"IT IS HER Mann Ki Baat." Taking a cue from the title of his own radio broadcast, this is how Prime Minister Narendra Modi described the central theme of the autobiography of his Italian counterpart Giorgia Meloni in his foreword to the book's Indian edition, which will be launched soon.

Modi also wrote that it has been a "great" honour for him to have written the foreword and that he was doing so with "respect, admiration and friendship" for Meloni whom he considers a "patriot and outstanding contemporary leader".

In the foreword for I am Giorgia — My Roots, My Principles (Rupa Publications), the Indian Prime Minister recalled how in the past 11 years he has interacted with many world leaders, each with a different life journey and how their journeys transcend personal stories and speak to some-

Prime Minister Narendra Modi has described the book as Italian Prime Minister's 'Mann Ki Baat'

thing larger.

"Prime Minister Meloni's life and leadership remind us of these timeless truths... It will be well received (in India) as a refreshing story of an outstanding contemporary political leader and a patriot... Her belief

in defending one's cultural heritage, while engaging with the world on equal terms, mirrors our own values," Modi wrote.

Modi also heaped encomiums on Meloni and mentioned more than once how her "inspiring and historic" journey resonated deeply with Indians — and how it was sure to resonate with Indian readers as well.

As far as popular political autobiographies go, this one is already an acknowledged best-seller. The original version was written in 2021 when Meloni was an opposition leader in Italy. She went on to become the country's first woman prime minister a year later.

In June 2025, the book's US edition was launched with a brief foreword from Donald Trump Jr, the US President's eldest son. He alluded twice to Meloni's "working class" background, and called the memoir an "unfiltered story of the patriotic tidal wave that Meloni would ride".

Jaguar Land Rover gets UK guarantee for £1.5-bn loan

SHIYIN CHEN
September 28

JAGUAR LAND ROVER will get backing from the UK government for a £1.5 billion (\$2 bn) loan aimed at easing the strain on suppliers hit by a production halt at the automaker that was triggered by a cyberattack.

The loan, to be provided by a commercial bank and guaranteed by UK Export Finance, will be repaid over five years, the government said on Saturday. It comes after the Range Rover maker idled plants in the UK, Slovakia, Brazil and India as a result of the attack earlier this month, derailing the wider supply chain.

The Labour government had been in talks to offer support to suppliers caught in the fallout of the hack, which forced some vendors to send staff home while others await payments from JLR.

Britain's largest carmaker employs 34,000 people in the UK, with a further 120,000 jobs in the country tied to its supply chain.

Providing relief to the automotive sector will help ease some pressure on Prime Minister Keir Starmer's government, as his ruling Labour Party gathers in Liverpool starting Sunday for its annual conference.

"This loan guarantee will

help support the supply chain and protect skilled jobs in the West Midlands, Merseyside and throughout the UK," said Business Secretary Peter Kyle, who this week visited the automaker's headquarters and supplier Webasto.

JLR said on Thursday that some of its systems were back online, enabling it to work via a backlog of supplier invoices, accelerate parts distribution to dealers and speed up vehicle sales and registrations. The firm aims to restart some manufacturing operations on October 1, although it warned it will take some time before it can return to full speed.
